SCM Research Centers

- **CAPS Research**

[CAPS Research](#) is the premier nonprofit global research organization dedicated to supply and supply chain issues. Since 1986, the center has been providing thorough, practical research for our strategic-minded corporate sponsors and the public. Our research products and events are aimed at executives with strategic responsibilities for the supply/sourcing/procurement effort.

- **Center for Supply Networks**

The mission of the [Center for Supply Networks](#) at the W. P. Carey School of Business is to advance the science of supply networks and sustainability management. Our goal is to become the preeminent research institution in the discipline of supply chain management through a focus on studying supply networks and sustainability as complex adaptive systems.

- **Health Sector Supply Chain Research Consortium**

[The Health Sector Supply Chain Research Consortium](#) (HSRC-ASU) is a research group within the W. P. Carey School of Business at Arizona State University. The consortium was founded in 2004 to bring together health sector organizations and academic researchers to conduct research on topics related to the strategic management of the health care supply chain.

#1 in the U.S. for innovation

#3 in the U.S. for supply
chain management

The Network for Value Chain Excellence (NVCE)

Mission & Vision

Vision:

A community of supply chain executives and experts focused on advancing value chain excellence and promoting ASU as a leading provider of supply chain talent, research, and thought leadership.

Mission:

To provide a forum and network for supply chain executives, ASU SCM faculty, experts, students, alumni and supporters to work together to advance supply chain education and practice.
